"What is a lady manager?"

What Has Been Printed. New Orleans Times-Democrat. "Several well-known periodicals have printed articles lately on how to see the Paris exposition economically," said a New Orleans railroad official. "I dare say they were written by people who have never been a hundred miles away from home, but the directions have been accepted as authoritative by lots of guileless readers, and the amount of human suffering that will certainly result is something distressing to think about. I met a couple of young women a few days ago who had started out to make the trip on a 'Paris-\$150' schedule. They had the fatal article clipped out of a family journal and pasted on a piece of cardboard, and, while I sighed for their folly, I couldn't help admiring their cour-They were Texas school teachers, and had been saving up for the trip for a long time. One of the statements in the piece they were steering by was that they could 'get very good rooms in Paris for 10 francs a week,' including breakfast. That is true in the abstract, when there is no exposition in town; but at present they can't get quarters in anything like a convenient location at less than 10 francs a day. If they go to some remote point the cost of transportation to and fro will more than make up the difference. Elsewhere in the article is the statement that 'any one who desires to be economical can dine well in Paris at from 30 to 40 cents.' I would like to know where that can be done, especially by an American girl. The price of omnibuses, cabs, theaters and different places of amusement were all set down at about half of the real figure. So was the steamship fare, and nothing whatever was said about tips, which are absolutely essential in Europe. Joking aside, such inaccuracy is liable to occasion serious distress to people who are foolish enough to al low themselves to be misled by it. I tried to give the Texas girls a friendly warning but they said they intended to make the trip now, even if they had to swim home.
